BSc in Civil Engineering

Technion - Israel Institute of Technology is Israel's premier center of science, technology and applied research and is one of the leading institutes of science and engineering in the world.

BSc in Civil Engineering (CE)

This prestigious four-year degree program at the Technion's Faculty of Civil Engineering trains future engineers to meet the infrastructure creation and modernization challenges of the 21st century. Students will be exposed to economic and management aspects of environmental and resource preservation; learn how to be proactive in developing clean technologies and infrastructures; and study ways of implementing renewable resource alternatives. Students who successfully complete their first year of the program may have the option of transferring into a regular undergraduate study track in Hebrew offered by other engineering faculties at the Technion.

Tuition*: **\$15,000** per year

Housing (on Campus): **\$4,000** per year

Health Insurance & Student Fees: **\$1,000** per year

Merit-based partial scholarships are available

First semester starts in **August**

*All fees are in US currency

At Technion, you'll discover the spirit of the "Start-Up Nation."
