BSc in Civil Engineering

Study at one of the world's leading institutes
for Innovation in Science & Technology

**4-YR
DEGREE
PROGRAM**

**FOCUS ON THE
ENVIRONMENT**

Technion - Israel Institute of Technology is Israel's premier center for science, technology, and applied research, and one of the leading institutes of science and engineering in the world.

The BSc program in Civil Engineering

This prestigious four-year degree program at Technion's Faculty of Civil Engineering trains future engineers to meet the challenges of 21st century infrastructure maintenance and development. Students will be exposed to economic and managerial aspects of environmental and resource preservation; learn to be proactive in developing clean technologies and infrastructures; and study the implementation of renewable resource alternatives.

With environmental issues gaining worldwide attention, environmental protection and rehabilitation is in high demand. Technion's BSc program in Civil Engineering focuses on training engineers in the field of environmental engineering, encompassing scientific, technological, economic, and managerial aspects of environmental preservation.

Tuition:

\$15,000 / yr

Campus housing:

\$4,000 / yr

Health Insurance

& fees:

\$1,000 / yr

Merit-based partial scholarships are available.

First semester starts in August.
